SUMIT KUMAR

Front end Developer

📞 7352620486   @ sumit2k30@gmail.com   🔗 linkdn, leetcode, github- , geeksforgeeks   📍 Muzaffarpur, India

SUMMARY

I am a passionate front-end developer currently pursuing a Bachelor's degree in Computer Science. With practical experience in building interactive web applications, including a Tic Tac Toe game and a BMI calculator, I am proficient in HTML, CSS, and JavaScript. Driven by a strong enthusiasm for learning and innovation, I strive to create engaging and seamless user experiences. I am excited to bring my creativity and technical expertise to a dynamic team environment.

EXPERIENCE

Front end Developer Intern

Fresher

📅 07/2022 - Present   📍 India

Entry level candidate in the field of front-end development

- Fresh graduate eager to apply knowledge and skills in web development.

EDUCATION

Bachelor of Technology

Vivekananda Global University

📅 08/2022 - 06/2026   📍 Jaipur

12th

Kids Camp International School

📅 06/2019 - 06/2021   📍 Muzaffarpur

10th

Gyan Ganga Public School

📅 04/2017 - 04/2018   📍 Muzaffarpur

KEY ACHIEVEMENTS

🏅 **Frontend Projects**

Successfully developed interactive web applications, including a Tic Tac Toe game, a BMI calculator, and a knowledge-sharing platform, using HTML, CSS, and JavaScript..

SKILLS

CSS   Front-end   Git   Github

HTML   html & css   Javascript

C++   DSA

TRAINING / COURSES

DSA with C++ at Coder Army

Course focused on Data Structures and Algorithms using C++.

mern stack web development at Coder Army

Course covering the MERN stack for web development.

PROJECTS

TIC TAC TOE GAME

📅 12/2024 - 12/2024

A classic two-player game in which players take turns marking spaces on a 3×3 grid.

- Developed a responsive design for a classic two-player Tic Tac Toe game.
- Implemented game logic to determine wins, losses, and draws.

BMI CALCULATOR

📅 11/2024 - 11/2025

A web app that helps users determine their BMI.

- Created a simple web application to calculate BMI based on user-input weight and height.
- Designed user-friendly interface using HTML, CSS, and JavaScript.

Web Wise

📅 10/2024 - 10/2024

Knowledge-based webpage for HTML, CSS & JavaScript tutorials.

- Developed a knowledge-based webpage with tutorials, quizzes, and a coding compiler.
- Utilized only HTML and CSS for creation.
